YOUR PERSONAL EVERYDAY HELPER

Donkey is the perfect trailer to bring along with you. Take the children to the park – with a Donkey it is no problem carrying snacks and toys along. Or ride to the farmers market further away and bring all groceries home safely hooked to the bike. The options are many. It easily attaches to your bike when you need it. Choose from a variety of coupling options. The cabin is spacious and easily accommodates up to 65 liters. The maximum load capacity is 40 kg. Choose between a black or red canopy. Donkey is the perfect companion for those who need an extra hand – every day!

ADJUSTABLE GRID FOR OPTIMAL STORAGE

Donkey is the extra set of hands that carry your goods so you can concentrate on other things. It comes with an adjustable grid for vertical or horizontal load separation. Change it instantly by simply turning the grid. Store the heavy load at the base and the more fragile elements at the top.

35 YEARS
ANNIVERSARY

EASY TO BRING ALONG

Choose which coupling you need.

The universal coupling fits most bikes. Or do you have an e-bike, then it is the M-coupling that is needed. Check with your dealer which one that fits your bike.

Flexibility Every Day

STURDY AND PRACTICAL

The powder coated steel frame construction, makes this bike trailer very sturdy and durable. The box is made of injection moulded frostresistant polyethylene which makes it easy to clean. The rainproof canopy comes in either black or red and is made of high quality fabric which can withstand all weather. It is easy to mount due to the rounded edges, that easily catches the canopy elastic band.
